A photograph of a modern outdoor courtyard. In the foreground, two white chairs with black metal frames sit on a concrete patio. To the left is a wall made of stacked stones. A gravel path leads through the courtyard, lined with small, rounded green plants. In the background, there is a green lawn, a large tree with a thick trunk, and a building with large glass windows. The overall atmosphere is serene and contemporary.

Niemann Weeks

Fantome side and coffee tables from **Niemann Weeks** help blur the line between indoors and out with their elegant lines inspired by the masters of Modern architecture. The tables are fabricated from steel rods, powder coated and finished in a Venetian silver leaf, a slightly tarnished look, then fitted with tempered glass tops. Available through *The Shanahan Collection*, 595 S. Broadway, Suite 1005, Denver, CO 80209, (303) 778-7088; or www.niemannweeks.com.

Sutherland's Shadow collection of teak furniture includes a lounge chair, sofa, and dining side and arm chairs designed by the late John Hutton. The collection is marked by a strong architectural form, a relaxed pitch and low seating that invite hours of lingering. Available finishes are natural teak, weathered, clear sealer and dark sealer.
